by inspiring
change and
actualizing human
potential

VISION

We fulfill the Wisconsin Idea by building partnerships to advance and transform education throughout Wisconsin and the world.

MISSION

We make connections that matter by facilitating relationships among researchers, leaders, educators, and community members to collaboratively innovate, advance, and transform education through research, policy development, classroom practice, and community engagement.

CORE VALUES

The Network:

- Engages diverse communities of people to share knowledge, identify opportunities for collaboration, and facilitate innovation.
- Is agile in response to emerging trends and changing environments.
- Applies cutting-edge research to inform decision-making.
